Response Ready Community-Driven Health Care Prepared

HPP prepares the nation's health care system to save lives during disasters and emergencies.

## Health care coalitions incentivize diverse health care organizations to work together.

Many different health care entities must come together to ensure community preparedness. Developed and sustained with HPP's support, HCCs are groups of health care and response organizations that collaborate to prepare for and respond to emergencies, natural disasters, and other crises.

HCC membership is diverse and varied, but all coalitions must include four core members.

Core member participation improves patient outcomes and enhances load-sharing during emergencies.

## **National HCC Core Member Participation Rate**

Regional efforts help patients receive the right care at the right place at the right time.

## HPP is the only source of federal funding for health care delivery system readiness.

Through regional collaboration on health care preparedness and response, HPP promotes a sustained national focus on improving patient outcomes, minimizing the need for supplemental state and federal resources during emergencies, and enabling rapid recovery in the wake of emergencies and disasters.

62 HPP awardees

476 **HCCs** nationwide 31,000 HCC members

\$5.9b Invested since 2002

**98**% of HPP awardees say that HPP funding has been critical to health care preparedness and response

"As a result of HPP's efforts, our nation's health care system is more prepared than ever."

Melissa Harvey, Director | Division of National Health Care Preparedness Programs

## 15 Years of Health Care Preparedness and Response

2002

**HPP** established to prepare the nation's health care system for emergencies

2006

HPP becomes part of ASPR, founded in the wake of Hurricane Katrina

2012

**Hurricane Sandy** becomes the second costliest storm in U.S. history

2014-2015

HPP supports regional treatment network following the Ebola outbreak

2017 HCCs respond to

Hurricanes Harvey, Irma. & Maria

2001 9/11 Attacks catalyze new national security

of

olution

2002-2012

HPP supports individual health care facilities by purchasing equipment and tangible resources

2012-2015

HPP formalizes support for developing and sustaining HCCs

present

HPP emphasizes the role of HCCs as response entities

2005

Hurricane Katrina reveals critical gaps in the nation's preparedness for natural disasters

2009 H1N1 Pandemic renews focus on influenza pandemic response

2013 Boston's regional HCC

leads response to **Boston** Marathon Bombings

2016 Zika leads to a public health emergency; the Pulse shooting leaves 49 dead
